

EYEBROWS IN PERFECTION

Eyebrow styling is one of the most important make-up statements of our time. Wild, bold, natural, bushy or dramatic—there's a perfect eyebrow look to suit every taste.

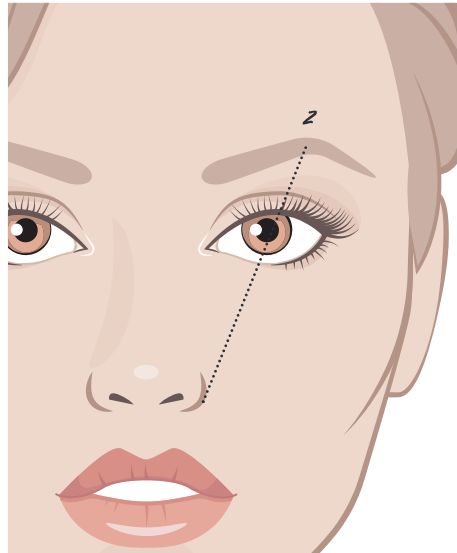

- Clear Lash & Brow Talent
- Tinted Brow Talent
- Eyebrow Talent Kit
- Eyebrow Pencil

EYEBROWS

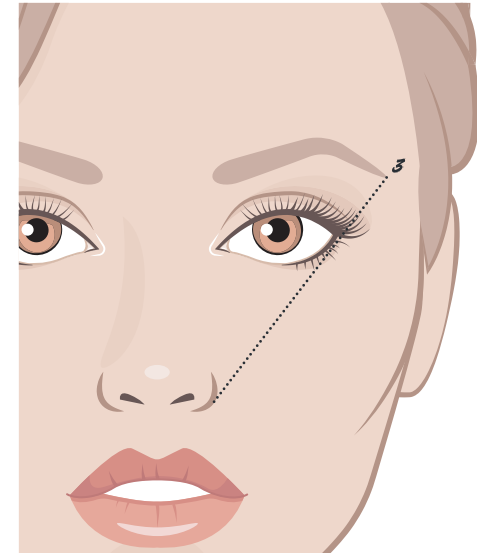

TO MAKE A STATEMENT

1 Place a pen or long eyebrow brush between the corner of your nose and the inner corner of your eye. Where it meets your eyebrow is where your brow should begin.

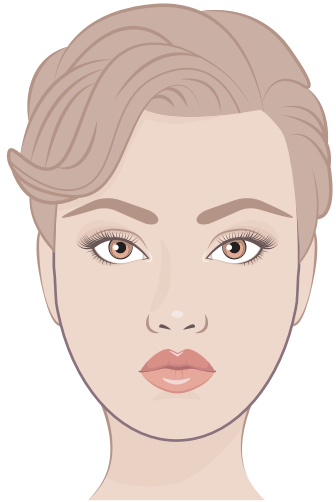

2 Place the brush between the edge of your nose and the outer edge of your pupil to work out where the highest point of your brow should be.

3 Place the brush between the edge of your nose and the outer edge of your eye. This shows you where your brow should end.

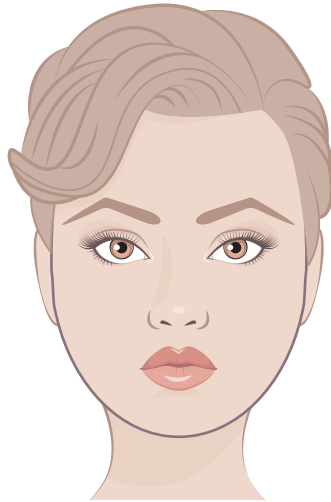

WHAT EYEBROW SHAPE WILL SUIT YOUR FACE SHAPE?

The perfect brow shape depends on your face shape!

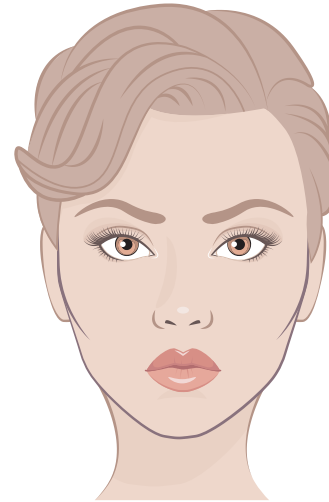

Oval

Thanks to balanced facial proportions, people with oval face shapes can style their brows as round or angular as they like.

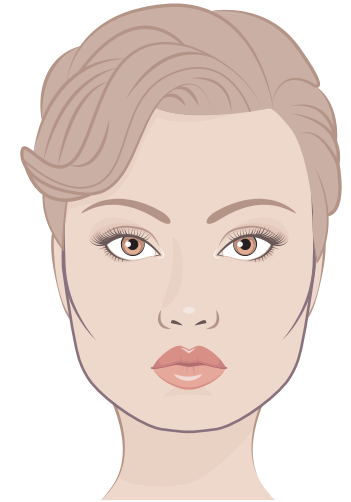

Round

To make your face look more defined and striking, make your brow arches more angular.

Heart-shaped

To make your forehead look smaller, round off the highest point of your brow and taper off gently. It's best to shorten the brows at the outer edge.

Square

The brows should be plucked into a round arch. This makes your face look softer and more balanced.
